NINETEENTH YEAR, NO. 25

GLEICHEN, ALBERTA, WEDNESDAY, OCTOBER 7, 1925

SUBSCRIPTION \$2.00 A YEAR

SPORTS WINNERS AT GLEICHEN SCHOOL FAIR

SPORTS PRIZES

Running race, 13 to 15—Frank Pobst 1st and Hugh James 2nd. Prizes by Stabback & Brown.

Running race 9 to 12—H. Eagle Ribs and M. Peace Maker. Prizes by Geo. Matthews Ltd.

Running race 7 and 8—B. Mayfield and Norman Schnepf. Prizes by Geo. Matthews Ltd.

Running race under 7—Leo St. Jean and T. Downey. Prizes by John Boyd.

Girls running race 13 and over—Evelyn Wood and Stella Reshaug. Prizes given by Dr. Farquharson.

Girls running race 9 to 12—Norm Downey and Margaret Reshaug. Prizes given by N. T. Purcell.

Girls running race under 9—Helen McIntyre and Ivey Hunter. Prizes given by Mrs. Pobst and school fair.

Boys sack race—H. Eagle Ribs and A. Little Walker. Prizes given by Webster Bros.

Boys and girls skipping under 10—Eileen Matthews and Rosie Two Horns. Prizes by Mrs. R. W. Brown and school fair.

Boys and girls skipping 10 and over—E. Schnepf and J. Guttrath. Prizes by school fair.

Boys three-legged race—David Ghostskin with W. Bearchief and 2nd L. O. Man with T. M. Man. Prizes by J. A. Menard.

Girls three-legged race—Evelyn Woods with Stella Reshaug and M. Bearchief with M. T. Horns. Prizes by J. A. Menard and G. H. Gooderham.

Relay race, four pupils from each school—David Ghostskin, Jack Spotted, Walker Bearchief and Archie Keg.

Boys high jump, under 15—Phillip Running Rabbit and Forest House. Prizes by Milt Wade.

Boys high jump, 15 and over—Robert Brown. Prize given by H. J. Bevan.

Girls high jump—Evelyn Woods and Stella Reshaug. Prizes given by A. Yates and Dr. Bowles.

Girls long jump under 15—Edna Woods and Margaret DesJardine. Prizes given by Gleichen Jewelry and Dr. Bowles.

Girls long jump 15 and over—Evelyn Woods and Stella Reshaug. Prizes given by F. E. Pobst and school fair.

Boys long jump under 15—Phillip Running Rabbit and Frank Pobst. Prizes given by T. H. Beach.

Boys long jump 15 and over—Rbt. Brown and Frank Plante. Prizes given by Flannagan Bros.

Half mile race—David Ghostskin and J. Spotted Eagle. Prizes given by J. O. Bogstie and G. H. Gooderham.

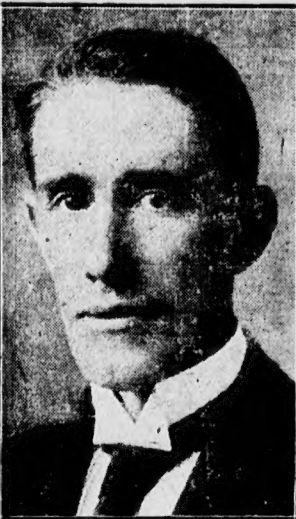

Tug of war—Old Sun's school team.

Special. Pole vault—Rbt. Brown and John Plante. Prize given by E. W. Taylor.

THE UNITED CHURCH

For the balance of the Sabbaths in October and for the first in November a series of four addresses will be given at the evening worship. These will be under the general title "The House of God's Building," and will be given in the following order: "The House," "The Materials," "The Builders" and "The Resources." The first of these addresses will be given on Sunday evening next at the regular service. If you have no other church home you are invited to worship with the United Church.

Last Thursday evening the Gleichen Oddfellows after their regular meeting in the Masonic Hall entertained a number of their friends at cards and dancing which proved to be most enjoyable to all present. A splendid supper was supplied by the wives of the Oddfellows and the brothers proved their ability as waiters and good entertainers.

MR. E. J. GARLAND
Sitting Member of Bow River and U. F. A. Candidate.

The present sitting member for Bow River Constituency, who has again been nominated as U.F.A. candidate at their convention on the 1st inst in Calgary, is the son of the late Dr. J. P. Garland of Dublin, Ireland. He was born in 1885 and educated at Beavertown College and Dublin University, was senior sophister at time of leaving for Canada in 1909. After working in various capacities through Quebec and Ontario he came west in 1911 where he again had varied experience of employment, amongst them being a day laborer on the Calgary streets, and sometimes now when passing with his friends takes great pleasure in pointing out the sidewalks for which he helped to mix cement, and the trees he assisted in planting.

Homesteaded at Rumsby in 1911 where he has ever since participated in the joys, disappointments and other miscellaneous vagaries which accompany the career of the pioneer homestead farmer. On the U. F. A. being organized in Rumsby he was one of the first members and in its various activities he found full scope for his boundless energy. He was made secretary treasurer in 1919 of Rumsby U. F. A. local. Elected president the following year. President of the Hand Hills Constituency Association; director of Starland Agricultural Society; secretary treasurer of Munson and Big Valley District Association; Secretary-Treasurer of Bow River Constituency Association. Elected to provincial U.F.A. executive in 1921 and in December of the same year was elected representative to the Dominion Parliament for Bow River Constituency. He was married in 1916 to Miss Alfreida Williams, daughter of John Rynning, of Rowley, Alta., and has three children.

THEFT OF DIAMOND CREATES A MYSTERY

SATURDAY OCTOBER 10 GLEICHEN COMMUNITY HALL

The disappearance of a large diamond from the necklace of a very wealthy woman, and the substitution of a piece of worthless "paste," so-called, in its place, causes the arrest of a young jewelry clerk in "The Great Diamond Mystery," the new Shirley Mason picture which comes to the Community Hall next Saturday evening. Trouble does not end there, however, for within a few hours after the precious gem is lost the head of the diamond firm is killed—and the young clerk is accused of the murder. It happens that this same young clerk is engaged to marry a young lady novelist, the part played by Miss Mason, who has just completed a murder mystery story based on the supposition that a murderer inevitably returns to the scene of his murder. William Collier, Jr., is seen as the diamond clerk. How Ruth Winton, the writer, proves the truth of her theory in order to save her sweetheart from the electric chair and herself from dis-

ORAGANTLER ITEMS OF NEWS

at this writing. There has been no drying wind yet. Very few in this district have their potatoes dug yet.

The weather is a little more settled at the time of writing but it will be sometime before threshing is resumed, if the snow goes as slow as it is.

W. Dankworth and family left last Saturday for California. Bill has been in poor health lately but we hope he will soon recover. Quite a number saw them off at the station.

Miss D. Glambach was a weekend visitor in Calgary with her parents, Mr. and Mrs. John Glambach, formerly of Milo. Miss Glambach is the teacher at Craigantler school for this term.

Mr. McPherson, of Edmonton, left that city on the last Friday in September on a business trip to his farm about three miles east of here, but when he got to Innisfail he had to leave his car and come on by train to Calgary, but after seeing what the weather was like decided to take the next train back to Edmonton. Mac thinks it is very unusual as it is generally the other way around—fair weather and threshing.

PUBLIC LIBERAL MEETING

Hon. Charles Stewart and Mr. Jesse Gouge to Speak Here

TUESDAY, OCTOBER 20th

The Hon. Charles Stewart, Minister of Interior of Canada, and Mr. Jesse Gouge, the Bow River Liberal candidate, will address a public meeting in the Gleichen Community Hall, at 8 o'clock p.m., on Tuesday, October 20th, in the interests of the candidate.

The public is cordially invited to attend this meeting and hear important questions of the day discussed.

WOMEN'S INSTITUTE TO GIVE MOVING PICTURE

WEDNESDAY, OCTOBER 14th

Next Wednesday night, Oct. 14th, the Gleichen Women's Institute are giving a motion picture performance in the Community Hall, in which Wm. Fox presents Shirley Mason in "Curlytop," by Thomas Burke of "Lincolnshire Nights." The Institute ladies hope for a big attendance as they want to pay off a small debt due the Agricultural Association, and also have a few dollars on hand for emergency purposes.

The picture is one chosen by the ladies that they believe will prove very interesting to young and old.

The Rev. Fred Cooke, of the Navy League of Alberta, who was in Gleichen last week taking up subscriptions to the Sailor Magazine and donations to the Navy League, will appreciate your co-operation and assistance. The Navy League of Canada is assisting the widows and orphans of the men of the merchant service, who were killed in the Great War. The Alberta division of the Navy League of Canada, is required to raise \$8,000 as its quota, to the annual budget and the whole amount of Canada is \$250,000. Alberta has already raised about \$3,500 of this amount and hopes to raise the balance for the end of the year.

Further contributions may be sent to John Irvine, Hon. Sec.-Treas., 817 First Street East, Calgary.

The fireworks should soon start with three candidates in the field.

Honor, is thrillingly told in "The Great Diamond Mystery." Denison Clift is credited with the direction of this picture, which, it goes without saying, is a William Fox production.

GLEICHEN SCHOOL FAIR PRIZE WINNERS

LIVE STOCK

Beef calf, Dick W. Elk.
Pair of pigs, 1st Herbert E. Ribs; 2nd Sam Cuter and 3rd Elmer Sanders.

Dairy heifer, Tom Fox.
Colt (light), Henderson Ulrich.
Colt (heavy), Tony M. Pipe.
Cockerel (heavy), Hugh James; Arthur Clifford; Ruby Varndell and Leo Woods.

Cockerel (light), Betty Kelly; Hugh Hamar; Leo St. Jean and Eddie Ferguson.

Pullet (heavy), Arthur Clifford; Hugh James; Emma Man and Dorcas Ghostskin.

Pullet (light), Yvonne St. Jean; Rosie St. Jean; Betty Kelly and Hugh Hamar.

VEGETABLES

Carrots
Gleichen I—Lona Bollinger; N. Schnepf and K. Harrison.

Gleichen II—Maureen Young; L. Eason and E. Schnepf.

Gleichen III—W. Bogstie; K. Wood and P. Downey.

Gleichen IV—R. McKay; E. Wood and I. McLean.

Beets

Gleichen I—L. Bollinger; W. Nicholas and B. Nicholas.

Gleichen II—E. Jones; P. Irvine and E. Schnepf.

Gleichen III—K. Wood; L. Nicholas and W. Wilson.

Gleichen IV—E. Wood; E. Sanders and C. Woods.

Paranips

Gleichen I—N. Schnepf; W. Nicholas and W. Nicholas.

Gleichen II—H. Bogstie; H. MacLean and G. Wilson.

Gleichen III—W. Bogstie and W. Wilson.

Gleichen IV—I. MacLean; L. Woods and E. Woods.

Turnips

Gleichen I—K. Harrison; H. Wilson and E. Lester.

Gleichen II—G. Wilson; H. Bogstie and F. Woods.

Gleichen III—W. Wilson; L. Nicholas and W. Bogstie.

Gleichen IV—C. Bogstie; C. Woods and L. Woods.

Mangolds

Gleichen I—N. Schnepf; W. Nicholas and B. Nicholas.

Gleichen II—H. MacLean; E. Schnepf and G. Wilson.

Gleichen III—L. Nicholas; W. Wilson and E. Nicholas.

Gleichen IV—L. Woods; E. Wood and C. Woods.

Peas

Gleichen I—E. Lester.

Gleichen II—Rosie St. Jean; G. Wilson and L. St. Jean.

Gleichen III—D. Pobst; L. Nicholas and W. Wilson.

Gleichen IV—F. Pobst.

Potatoes

Gleichen I—E. Lester and H. Wilson.

Gleichen II—V. Sanders.

Gleichen III—E. Sanders; C. Woods and F. House.

Cabbage

Gleichen I—H. Lester.

Gleichen II—H. MacLean and H. Bogstie.

Gleichen III—F. Woods and Y. Sanders.

Gleichen IV—L. Woods; C. Bogstie and E. Sanders.

Flowers

Gleichen I—E. Lester and H. Wilson.

Gleichen II—E. Schnepf; I. Sanders and F. Woods.

Gleichen III—V. Sanders; G. Wilson and K. Wood.

Gleichen IV—E. Wood and E. Sanders.

Carrots

Alton—J. Wilson; A. Hall and M. McBeau.

Crawfoot—N. Kettle; J. M. Bears, and J. Traveller.

Elwood—O. Tiede; L. Tiede and R. Mahon.

Hammer Hill—J. Colpoys and G. Colpoys.

WORLD HAPPENINGS
BRIEFLY TOLD

Dr. J. S. Halstead, oldest Free Mason in the United States, and possibly in the world, died recently at the age of 107.

Officials of a safety association have computed the annual "traffic loss" of the United States. It amounts to two billion dollars annually, or \$20 for every citizen.

The importation of Welsh semi-anthracite coal to supplement supplies of Pennsylvania anthracite during the present strike is being considered in New York.

Rt. Hon. Sir J. Jordan, former British minister in Peking and member of the League of Nations advisory committee, died suddenly at a meeting of the China Association in London.

Robert A. Loar, a West Virginia attorney, having made a bet during the last presidential campaign that Davis would beat Coolidge, has paid up by walking 410 miles barefoot.

A stamp bearing the likeness of President Wilson will be issued by the United States post office department by the first of December, if the plans of the friends and admirers of the war president succeed.

Manufacture of liquor containing 60 per cent. of alcohol and vodka of 40 per cent. will be permitted in Soviet Russia from October 1, under a decision reached by the central executive committee.

It is announced that the French government has accepted the invitation of the Toronto Horse Show officials to be represented at the tournaments in the Ontario city next November.

The United States post office department plans to open eight new air mail routes this fall. Bids for the contracts for the new routes, which are in the south and west, have been opened.

The London Evening News quotes Congressman Fred Britton, of Illinois, on his way home after a trip to Russia, as saying: "I talked to Tschicheln and others, and concluded that they are a lot of murderers and thieves."

Pending realization of the League of Nations' hopes of general limitation of armaments, efforts will be made immediately for a gradual reduction of Holland's military forces while maintaining internal security.

Britain has entered the stage of "capitalist disintegration" and is "headed for revolution," Leon Trotsky declares in a book entitled "Whither England," an American edition of which has been published in New York.

London To Australia In Week

Two New British Airships Can Carry 140 Passengers

Two airships are now in the course of construction in England which it is claimed will be able to fly to Australia in a week. The two new British airships which are to inaugurate the inter-empire air services in 1927 are of 5,000,000 cubic feet capacity, or nearly twice as large as the present largest airship in the world. Each of the new ships can carry 20 tons, and the R100, Commander Burney's ship—the other, R101, is being built by the air ministry—will have a capacity for 140 passengers. Though the speed of these ships is around 75 miles an hour, the ships that will follow these pioneers will, according to Burney's plans, travel at 100 miles an hour, and bring the continent of Australia, 10,000 miles away from Europe and Asia, within four days' time distance from the heart of the empire.

Wonders Of Radio

Photo Transmitted By Radio While Lecture Is Broadcast

What radio-television may finally carry to millions of homes was illustrated in New York at the fourth annual national radio exposition at Grand Central Palace, when a photo of Davis Sarnoff, vice-president of the Radio Corporation of America, was transmitted by radio at the same time his address was broadcast.

Sarnoff predicted the time when the American farmer would "sit in" on an operatic performance broadcast from Covent Garden in London, and when a speaker would be able to send his voice into every home equipped with radio.

Many Leaves On Elm Tree

A certain botanist who has given much thought to the matter estimates that a good-sized foliage tree such as an elm, may produce a crop of no fewer than seven million leaves. The combined surface of all these leaves amounts to no less than 200,000 square feet.

W. N. U. 1595

A Daring Experiment

Electrical Wizard Believes That Science May Rival Nature

Across the gap between the electrodes of a giant electric machine leaped a mighty arc of blue-white flame. A terrific crackling roar snote the quiet of a Paris laboratory. Then Prof. Jean Perrin, white-haired, white-bearded, benevolent-faced, opened a switch with a long-fingered white hand. The dazzling glare was snuffed out. The crackling ceased. In the sudden quiet even his low-pitched, pleasant voice sounded loud. "It is but the beginning," he said. "Soon I shall have available a means of producing 10,000,000 volts of direct-current electricity. Then, perhaps, I shall be able to reproduce, on a small scale, the conditions that cause the radiation of light and heat from the sun and the still more gigantic stars of the universe."

Such is the report given by Frederic M. Delano in the October Popular Science Monthly, of a remarkable experiment recently completed by Professor Perrin, head of the laboratory of physical research of the famous University of Paris, an experiment that leads this noted French scientist to believe that eventually he will be able to create, in effect, another sun. "With 10,000,000 volts of direct-current electricity," said Professor Perrin, "I believe I can break up the atomic structure of matter—disintegrate individual atoms; perhaps even drive the nucleus of one atom into another atom and thus create a much denser atom. If I am able to do that the secret of the sun's radiation will have been solved."

"I believe," he explained, "that the sun is formed by the constant changing of the extremely light atoms of hydrogen into atoms of greater weight, such as atoms of oxygen, nitrogen and the other heavier elements. According to my theory—and many other scientists agree with that theory—everything in the universe—the sun, the stars, the planets, and everything on them—once consisted of atoms of hydrogen, and these have changed gradually into heavier atoms that make up our atmosphere, our soil, our rocks, our own bodies."

"In changing into any other element, I believe that hydrogen changes first into helium, which was found in the sun before it was found on earth. In doing so, a portion of its atomic weight is lost and given off as energy. This released energy comes to us from the sun in the form of light and heat, and makes life possible on earth."

"By hurling against the atomic structure 10,000,000 volts of electricity, I may be able to produce this change, of light atoms into heavier atoms, and thus, in effect, create another sun."

Some of the vast energy released by a great sun-producing plant, Professor Perrin predicts, could be captured and transmitted in the form of electricity to run factories and trains, or to provide light and heat for great communities in place of coal and oil.

Canada Is Well Represented

Has Members On Various Committees Of League of Nations

The Dominions and India are well represented on the various committees of the Assembly of the League of Nations, at Geneva.

The following Canadians are on committees: Hon. Philippe Roy, commissioner-general in Paris, committee on technical questions and the financial and economic committee; Senator Hewitt Bostock, Kilmocks, B.C., armaments committee; and W. A. Riddell, Canada's permanent representative at the league, in charge of the Canadian bureau, committee on social questions and committee on political questions.

British Soldier Had

To Discard Uniform

Obliged To Wear Civilian Clothes In Irish Free State

A British soldier of Enniskillen, who entered Free State territory at Bundoran, Donegal, in khaki uniform, with some of his relatives, was arrested by the Civil Guards, who said he had thereby committed an offence, and would be detained. The offender, who said he was unaware of the offence, was then given a civilian cap and coat and was set free to enjoy his stay in Bundoran. When his day's holiday ended he reported to the Civil Guards in barracks and returned the civilian clothes.

A fanatic, acting as engineer at Donegal (Ireland) Mental Hospital, is regarded by the chairman in charge as an absolute genius. He has saved the committee over £1,000 by his capability.

In the long buried city of Ur of the Chaldees a piece of sculpture has been dug up, showing a picture of workmen carrying mortar up ladders.

Turkish Police Must Wear Modern Uniform

Constantinople Officials Gradually Bringing City Up to Date

Innovation after innovation follows the trend of the times in new Turkey. By order of the prefect the picturesque night watchmen of Constantinople must shave off their flowing beards and crop their long hair. Also they must replace their vari-colored turbans and scarfs and baggy trousers with a uniform resembling that of the regular police.

No longer are the wakeful inhabitants of the city to hear the re-assuring beat of their long iron-tipped sticks on the cobblestones or thieves make their escape, thanks to the warning tap-tap-tap. The sticks of the watchmen have been confiscated and the policeman's billy, less attractive but of more practical value, is to be carried instead.

Heretofore the watchmen or "bikd-ils" as they are called, have collected gratuities from householders on their beats instead of receiving regular wages. Now the municipal government will exact from each family, in proportion to its financial capacity, a sum to be paid them as a regular wage.

A Speedy Motor Car

Is Capable of Travelling Over Three Miles a Minute

The present-day craze for speed should be gratified by a motor car, recently built, which is capable of developing a speed of more than three miles a minute. It will never be able to traverse any highway, because its minimum speed is over sixty miles an hour. In other words, it is incapable of going slow. Its engine is a Napier Lion of the aeroplane type, and, weighing only 800 lbs., develops 600 horsepower. Travelling at its maximum speed, which may be 200 miles an hour, it will become almost a flying car, skimming the ground, rather than running on the surface. In order to carry out a full mile test at top speed, a stretch of at least seven miles will be necessary. It will require three miles to attain its full speed, and another three to come to a standstill.

Odd House Needs Owner

Structure in Shape of Flatiron Built in Seattle

A house five feet nine inches wide was built on a lot 40 by 130 by 11 feet in Seattle this summer by A. R. Wark, contractor. An ordinance requiring the house to be in line with others on the two streets it faces was the reason the structure took the shape of a flatiron, Wark said.

The dwelling contains three fan-shaped rooms. In the rooms a disappearing breakfast nook, a revolving bed and a vanishing ironing board were installed. The basement has a combination laundry and garage. Wark said he was trying to find somebody the house would fit so that he could sell it.

Mount Shasta Becoming Active

Volcano in California Causing Alarm To Redding Citizens

Mount Shasta's rumblings are causing some alarm among the citizens of Redding, Cal., and it is feared the volcano is ready to break out into active eruption. Investigations by the United States bureau of fisheries show that water of the McCloud River is four degrees warmer than normal; that the surface of Mount Shasta is warmer than usual; that the mud flow is increasing, and that grass is dying in meadows much earlier than usual. Heat in the depths of the mountain is believed to be the cause of the peculiar conditions.

Many Women Leaving England

According to official figures just made public, 10,600 females, wives or housekeepers, left the British Isles for British North America last year and 6,000 went to Australia. Over 10,000 males migrated last year to British North America to engage in agricultural work.

The total number of emigrants from the British Isles in 1924 to other parts of the empire was 115,600.

Montreal's Population

Greater Montreal's population is now estimated at 1,028,000, according to the 1925 issue of Lovell's Montreal Directory just published. Population of the city proper is estimated at 907,500. Population in the suburbs and surrounding country is given as 120,500. The last estimate of Greater Montreal's population, by the same authority, gave the population as 979,027.

A physician at the University of Minnesota declares that the length of time one can hold his breath is a good test of physical fitness.

There are more than 400,000 college students in the United States.

A Simple Design For Girls

Girls' dresses adhere to simple lines and often are quite restrained in their ornamentation. The belts are the main trimming feature of the dress pictured here, which is cut in one piece, with a little extra fullness over the hips at the low waist-line. The sleeves may be made short or long and gathered into a band at the wrist. The dress has an opening at the centre front, and the neck is finished with a narrow collar. Sizes 6, 8, 10, 12 and 14 years. Size 8 years requires 2 1/2 yards of 32-inch, or 2 3/4 yards of 36-inch material. Price 20 cents.

The designs illustrated in our new Fashion Book are advance styles for the house dressmaker, and the woman or girl who desires to wear garments dependable for taste, simplicity and economy will find her tastes fulfilled in our patterns. Price of the book 10 cents the copy. Each copy includes one coupon good for five cents in the purchase of any pattern.

Used Seventy-Year-Old Christening Robe

Baby Girl Christened In Robe Worn By Grandfather At Similar Ceremony

Seventy years ago, on board ship in mid-Atlantic, making the then slow and difficult voyage from Scotland to Canada, a little Scotch baby was christened. This was Master Alexander Fleming, who, after coming to Canada with his parents as a tiny lad, became an honored citizen of Crampton, Ont. Recently Alexander Fleming's baby granddaughter, Marion June Fleming, daughter of Mr. and Mrs. Edgar Fleming, of Galt, was christened in London, Ont. Col. the Rev. Dr. William Beattie administered the rite of baptism following the marriage of the baby's aunt. And the baby girl, who went through both these ceremonies with much dignity, was dressed for the big occasion in the same little lace-trimmed robe worn by her grandfather at his more adventurous baptism, 70 years ago.

Refuse To Comply With Request

Radio Negotiations With French Government Prove Unsuccessful

Negotiations which the British Government is conducting with the French Government on behalf of Canadian radio operators with regard to cessation of the use of 450 and 300 metres wave by their ships and stations off the east coast of Canada have been unsuccessful, the French Government being unable to see its way clear to comply with the British Government's request.

The German Government, it was learned, has agreed to comply with the request of Canadian radio operators, and has issued instructions accordingly to ships flying the German flag.

Plan To Salvage Treasure

Operations for the recovery of all treasure lost at sea since the time of the Spanish Armada are planned by salvage experts.

The total value of sunken treasure is estimated at one billion pounds. First operations will be off the Irish coast.

Wembley Exposition Faces Big Deficit

Estimate Puts Loss At About Three Million Pounds

The British empire exposition at Wembley will prove as great a financial failure this year as in 1924, it is feared. One estimate puts the loss to the big British firms guaranteeing the exhibition at £3,000,000.

This pessimistic forecast is based on the rate of attendance to date. It is estimated that unless the attendance totals rise only 8,500,000 persons will have gone to Wembley this year by the time the great fair closes its gates at the end of October. Last year 17,000,000 paid admission, which was half the number needed to make Wembley a financial success.

"The biggest business proposition ever put up by this country is also the biggest failure," says one London newspaper today, attributing the failure to the fact that "Wembley all along has lacked a showman—an inspired autocrat who with the marvelous material at hand could have made it the most successful and stimulating exhibition the world has known. Today Wembley is a tragedy of inept management."

Manitoba Wheat Pool Do Well

Handled Over Eight Million Bushels At Slight Cost

The Manitoba Wheat Pool alone handled nearly eight and a half million bushels of wheat last year at an administrative cost of slightly over three-fifths of a cent per bushel. Interest, insurance and elevator charges absorbed a little less than half a cent, the total cost thus being a trifle over a cent a bushel.

At the annual meeting of the pool held in Winnipeg, three prizes of \$75 each were voted to be given next year for the best essays on co-operation—competition to be limited to teachers and college students in rural high schools in the province.

A resolution was unanimously passed, to become effective at the next meeting of the pool, declaring that no member of the legislature or of parliament, or director of the United Farmers of Manitoba or the Farmers' Union of Canada shall be eligible to serve as director of the wheat pool.

Real News

Finding of a Rust-Resisting Variety of Wheat

Great events often have to be unveiled. From Aberdeen comes the brief announcement that the claim of R. S. McFadden, South Dakota wheat grower, to have developed by cross-breeding a variety of wheat that resists all efforts to infect it with rust, has been tested by department of agriculture scientists and found to be true.

Finding of a rust-resisting variety of wheat means literally billions of dollars to the agriculture of the world just as discovery of the durum drought-resisting wheat meant its billions of dollars. Such triumphs are of far more importance and deserving of more public attention than news of the declarations of wars or the signing of peace treaties.—Fort Worth Star Telegram.

Baldwin and His Pipe

Breaks Tension at Critical Period in Negotiations With Miners

The pipe of peace was once more in evidence at a critical period of the recent negotiations between coal miners, owners and the government. When the two sides reached a point where a deadlock seemed inevitable, and the atmosphere was strained and formal, Premier Stanley Baldwin fumbled in his pocket and produced his pipe. This he began slowly to fill, remarking: "Let's smoke, shall we?"

The suggestion was adopted by both miners and owners, and the formality of the strained atmosphere gradually disappeared. Within an hour the basis of a provisional agreement had been reached.

Broadcast Carnival Sounds of Fair

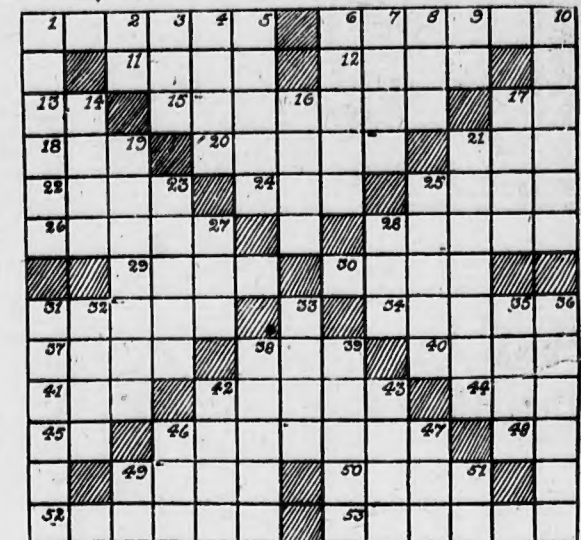

Broadcasting the carnival sounds of a big state fair will be attempted for the first time. Raucous cries of the hot dog vendors, the tooting of merry-go-rounds, the squealing of pigs, crowing of cocks, mooing of cows, the patter of racing hoofs on the track, the roar of speeding automobiles and the blaa of the hurdy-gurdy shows will be put into the microphone of a St. Paul station from the Minnesota state fair grounds.

When Locusts Stop Flying

A flight of locusts will rise to a great height and cover forty or fifty miles in a day. But once the locust swarm comes to the ground, there it remains, devouring every green thing and never again using its wings.

If wives were as nice to their husbands as female clerks are to their male customers, but few matrimonial failures would be recorded.

OUR CROSSWORD PUZZLE

Horizontal

- 1—Colored crayon.
- 6—Talks.
- 11—Greasy.
- 12—Injured.
- 13—Preposition.
- 15—Separating.
- 17—Physician (abbr.).
- 18—Male child.
- 20—Lowest tides.
- 21—Social function.
- 22—Smell.
- 24—Nickname for a relative.
- 25—Make a noise like a donkey.
- 26—At no time.
- 28—Wounds in a coarse manner.
- 29—Sufficient (poetic).
- 30—Low male voice.
- 31—Overgrown with decaying organic matter.
- 34—Hag.
- 37—Higher branches of learning.

Vertical

- 1—Venom.
- 2—Thus.
- 3—Point.
- 4—Ardor inspired by enthusiasm.
- 5—Musical instruments.
- 6—Vessels.
- 7—Play on words (pl.).
- 8—Unit of energy.
- 9—Near.
- 10—Wanders.
- 11—Protuberance.
- 14—Appendage.
- 17—Apportionment.
- 19—Something new.
- 21—Put faith in.
- 22—Tears asunder.
- 25—Fundamental.
- 27—Man's name.
- 28—Stomach.
- 31—Charted.
- 32—Spoken.
- 33—Acid.
- 35—Crustacean.
- 36—Chopping.
- 38—Grade.
- 39—Clan.
- 42—Witnessed.
- 43—Obstruction.
- 46—Twice one.
- 47—Kind of carriage.
- 49—Part of "to be."
- 51—Chinese weight or measure.

Example To World

Election of Senator Dandurand of Canada to Presidency of League Of Nations

Canada constituted an "example to the world of how to handle successfully the problem of the treatment of minority populations," declared Paul Painleve, premier of France, as the retiring chairman of the League of Nations Assembly, speaking in the assembly at Geneva on the election of Hon. Senator Raoul Dandurand of Canada to the presidency. The election was the feature of the session.

M. Painleve paid a tribute to Senator Dandurand as a statesman of high capacity and deep knowledge of juridical questions, and referred to Canada as a common ground of British and French views. In Canada, M. Painleve said, French civilization lives peacefully and in brotherly union with the British and French civilization.

He said that the choice of the assembly was particularly felicitous, as Canada was on common ground with the British and French civilization.

For British Show

Shipment of Manitoba Butter Goes To England

Ten boxes of Manitoba butter have been shipped to England to compete in the 47th annual dairy show of the British Dairy Farmers' Association at the Royal Agricultural Hall, Islington, London.

The classes in which the shipments entered are the 56-lb. box of salted and 56-lb. box of unsalted butter. One entry in each class has been sent by the Crescent Creamery, Winnipeg; Gallagher, Holman Company, Manitoba Co-operative Dairies, Shoal Lake Creamery and the City Dairy.

The dates of the show are: Oct. 20 to 23, inclusive. Letters recently received from W. A. Wilson, dairy products representative in England, are such as to give every hope of a good showing by Canadian exhibits, as the commercial article is showing decided improvement of late.

To Honor Canada's Womanhood

Site For National Woman's Memorial Hall Is Granted

The site for a national woman's memorial hall has been granted by the Dominion Government. It was announced at an executive meeting of the Ottawa Woman's Club. The action of the government is the result of a request made by a delegation of women who waited on the privy council last January, asking for a site for a memorial hall, to be used by all national organizations of women throughout the Dominion, irrespective of race or creed. The location of the site has not been disclosed, but it is understood that it will be a place of considerable prominence in the capital.

Five gallons of gasoline has an explosive power equal to 418 pounds of dynamite.

Answer To Last Week's Puzzle

C.N.R. Tourist Traffic Sets New Record

Passenger Traffic This Year Has Surpassed All Previous Records

Reports presented at a recent meeting of passenger traffic officials of the western region, Canadian National Railways, held at Jasper Park Lodge, showed that passenger travel this year on both rail and steamship services of the system has surpassed all previous records. Despite the increased accommodation offered this season at Jasper Park Lodge, the quarters have been filled to capacity throughout the summer. This summer the Canadian National entered the Alaska trade with great success, while the development of the Triangular Tour, taking in Vancouver, Jasper Park and Prince Rupert, has brought more tourists into the Northern Canadian Rockies than ever before. R. Creelman, passenger traffic manager of the region, announced that greater efforts than ever will be made to place Canada before intending tourists and to develop also traffic east and west within the Dominion.

May Prove Successful

Claimed Discovery of Cure For One Form of Cancer

An article in the Lancet, leading British medical journal, by Dr. Thomas L. Mundsén, of the Lister Institute of Preventive Medicine, reveals the alleged discovery of a cure of the form of cancer known as sarcoma.

The efficacy of the cure is qualified only in that it has thus far only been applied to rats, in which the disease has been transplanted.

Of fifty rats treated, according to Dr. Mundsén, 82 per cent. have been cured.

Ship Lumber to Japan

The lumber export trade from the Pacific coast with Japan has been steadily increasing since the war, and official export figures covering logs, timber and lumber of all kinds show the following results for the past three years: 1922, 568,438,000 feet; 1923, 742,821,000 feet; and 1924, 839,751,000 feet.

G. Holt Thomas, Buckinghamshire, claims the world's time record in building a house. Thomas, with four men, put up a wooden house of four rooms in ten hours and 45 minutes.

Better Arrangements Will Be Made For Bringing In New Settlers

Edmonton—Advising a large gathering at a dinner given here last night, the Hon. Mr. B. H. Harty, Minister and President of the Canadian Pacific Railway, announced a new arrangement entered into between the Canadian government and the government, by which, he said, it was now possible to very materially increase the movement of desirable immigrants to Western Canada. Under this agreement, the two railway companies, through their Canadian National department, have been given a free hand to select, transport and distribute all colonies, who can be properly assimilated in Canada, with the further privilege of finding the necessary permits for their admission, subject to the requirements of the statutes and to the approval of the Minister of the Interior.

"As a result of this agreement," said Mr. Harty, "we may be able to bring in a considerable number of colonies existing in the west, to look forward to a renewal of the movement of those who are already present, and in solving the serious problem we are now faced with in Canada."

Russian Prisoner For Eleven Years

German Shipwrecked at Escape Have Just Succeeded

Ross, Germany—After eleven years of imprisonment in Russia, during which he made several unsuccessful attempts to escape, Paul Ooms, the shipwrecked German, has just been released from his Russian captivity of the German army and taken to his home.

When he returned, he declared, he was welcomed to a Russian working squad and put to hard labor.

Airmen Watching Turks

Troops on Frontier Writing Despatches

London—Patriot "London Times" has been receiving a number of reports from the Turkish frontier, which are being written by the Turkish troops.

The information received that British soldiers are keeping a sharp watch on the Turkish frontier.

Prohibition For Weekend

Warsaw—The Polish Government has prohibited the sale of alcoholic beverages from 8 p.m. on Sunday to 10 a.m. Monday. An exception to the ban is made for a restaurant and one-half per cent. alcohol.

Enforcement of this prohibition has been one of the most difficult of Poland.

Premier King Coming

St. Peter's, N.S.—Speaking here, Premier Alexander King intimated that he would speak in Manitoba, Saskatchewan and Alberta following his recent tour of the Maritime Provinces. He did not say whether the western tour would be extended to the Yukon.

Kept Going On Water Ditch

New York—Liding for five weeks on water only and not subsiding a day's rest, the patient, Edmund Wrench, a well known, has been kept in bed for 41 days, but cannot be "discharged" yet.

Arctic Coming Back

Edmonton—The Canadian expedition to the Arctic coast, which was unable to reach its objective—Rusho Point—under command of Captain Bartlett, the ship Arctic is now returning. It is expected in about October 1.

Seat For Halsey

Toronto—The British Admiralty, at their convention, ordered the federal nomination to that constituency in Hon. Vincent A. Halsey, who was a member of the King cabinet. It was decided that he would take a few days to consider the matter.

Closed Season For Chickens

Windsor—A closed season for prairie chickens, quail and grouse, was being proclaimed in Manitoba and the other provinces of the prairie provinces. The season for the variety of wild fowl was given as the reason for the order.

Canada Will Co-operate

Dominion is in Full Sympathy With League of Nations

Geneva—Senator Hiram Bingham, of Canada, addressing the League of Nations assembly, explained the position of Canada in regard to the treaty proposed on peace and disarmament.

Prospective American Settlers

Disseminated With Condition in U.S.

Windsor—A party of the "disseminated" American settlers, who arrived in the North Pacific Railway, arrived in Western Canada, seeking land in Western Canada.

Discuss Anglo-American Relations

Manitoba Progressives Active

Winnipeg—Progressive party candidates will be in every rural district in the province, according to an official statement of the party.

Wheat Grading High

Over Fifty Five Million Bushels Marked By Sept. 15th

Winnipeg—The grain elevator industry has reported that the amount of wheat graded in the province has reached 55,000,000 bushels.

AGREE ON PLANS TO RETAIN NEW FREIGHT RATE

Edmonton—If by any means the board of railway commissioners, as a result of the application of the Montreal rate of freight, to be levied on the Canadian Pacific, the order equalizing the rate on westbound freight, and that on eastbound, immediate action will be taken to the Canadian price control.

Many Chinese Towns Surrounded By Water

Breaking of Dike Has Changed Course of River

Peking—The inundated villages are surrounded by water in consequence of the breaking of the dike of the Yellow River at Yangtze.

Agreed On Debt Payments

Sofia, Bulgaria—A useful step in the direction of the Balkan peace is the agreement between the Balkan states on the payment of the debt.

Japan Ship Sold For Rupee

Tokyo—The government announced that it was beginning disposal of the Japanese ship to the United States.

Federal Trial Commission

Montreal—Joseph Bouché, local member of the House of Commons, has been asked to represent the province of Quebec on the federal trial commission.

Millionaire Spokesman As Fined

Windsor, B.C.—For violating the provincial game regulations, one of the millionaires, who was a member of the King cabinet, was recently fined 100 and costs with an order of thirty days in jail before his release.

Can't Let Trade Increase

Edmonton—The trade between Canada and the United States, as compared with August 1914, shows that the trade of the United States is now 100,000,000 more than in 1914.

SAYS WHEAT POOL PROVES TO BE A BIG SUCCESS

Windsor—The wheat pool, which was organized in 1914, has proved to be a big success. The pool has been able to sell its wheat at a higher price than the individual farmers could have done.

Will Put Candidate in Every Rural Riding

Winnipeg—Progressive party candidates will be in every rural district in the province, according to an official statement of the party.

Coarse Grain Pool

Saskatchewan to Operate Pool This Season

Regina—Decision to operate the Saskatchewan grain pool has been made by the Saskatchewan wheat pool.

Refused Admission To U.S.

Commentary Member of British House of Commons Is Not Wanted in Washington

Washington—A member of the British House of Commons, who had been refused admission to the United States to attend the Inter-Parliamentary Conference, has been refused admission to the United States.

ALL PROGRESS RECORDS BROKEN

Windsor—All Canadian grain records were broken on the western front on the 15th of this month.

Will Deport Chinese

New York—The United States government has decided to deport Chinese who are in the United States.

The Harding Memorial Unveiled at Vancouver

Vancouver—The Harding Memorial, which was unveiled at Vancouver, is a monument to the late President of the United States.

British Foreign Office Blamed

Westminster Gazette. Says Inquiry Into Case of Egyptian Prince Should Be Made

London—The British Foreign Office is being blamed for the case of the Egyptian Prince, who was killed in Egypt.

A Remarkable Expedition

Major Burwash Attempting One Man Trip Along the Northwest

Ottawa—Major Burwash is attempting a one man trip along the Northwest coast of Canada.

Premier Baldwin Is Confronted With Many Problems For Solution

London—A meeting of the British cabinet will be held early this week, following the return of Prime Minister Baldwin from his tour of the United States.

Don. Motherwell Secures Nomination

Will Be the Liberal Candidate For the House of Commons

London—Don. Motherwell, Minister of Agriculture, has been nominated as the Liberal candidate for the House of Commons.

Plan To Improve Scheme

Australian Government Proposing Better Pay For Juveniles

Sydney—The Australian government is proposing a better pay for juveniles who are in the juvenile reformatory.

Neighs To Contact Portage

Portage to Be Made—Right Hon. Minister of the Interior, Mr. H. H. McLeod, has been asked to contact the portage of the Hudson Bay.

Reefs of Debt

THE man or woman who plunges into thoughtless spending, making no provision for the future, faces financial shipwreck on the relentless reefs of debt.

Men in debt no longer control their time or their careers. Others control them. To remain in debt is to have to do without, in bitterness of spirit.

The habit of saving part of every dollar you earn will help to keep you clear of debt, and will enable you to enjoy comfort and contentment in the days that are to come.

Our Budget Book will suggest a savings plan to fit your income. Ask our Manager for a copy.

Galt Coal

GALT COAL IN THE LUMP SIZE IS THE VERY BEST FUEL ON
EARTH FOR HEATERS

BECAUSE:

- It gives a clean, even heat
- It solves the ash edging nuisance by burning to a small amount of fine, dustless ashes which can be blown to the side.
- It is easily regulated to increase the heat quickly in the morning or give a slow, even heat during the day and night.
- It is more economical than cheap coal—once the fuel standard for heaters.

Oct. 9—Dance at the Meadowbrook Community Hall.

Oct. 10—"The Great Diamond Mystery" at the Gleichen Community Hall.

Oct. 14—"Curlytop" by Women's Institute, in Community Hall.

Oct. 21—Public Liberal Meeting in Gleichen Community Hall.

TOWN AND DISTRICT

Miss Lov, of Cardston, visited with her brother, Sam, of the Anawood school from Friday until Sunday evening. She is attending Normal in Calgary.

Last week The Call wrote letters asking for information of the three candidates contesting the Bow River Constituency, but so far have only heard from Mr. Giesland's friends. We hope, however, the others will reply shortly as we wish to deal fairly with all the candidates.

C. Long Long, who has been ranching at Elk Point writes he is now located at Flat Lake, Alta, and asks: "Is John Glimbeck still in the country. I never see his writing of Milo any more." John is now retired to city life in Calgary and is last known Mr. Long says he is still a Milo booster.

McKenzie King and Arthur McElhan met at Hill Roaring Falls. Some good falls may think this is using one word but it is not, as the following dispatch from Blue River, B. C. shows: "For a fleeting moment Premier King and Mr. McElhan Sunday brayed the hatches in the wilds of the Yellowstone Park. As Premier King's train stopped near Hill Roaring Falls the two leaders crossed Mr. King was on his way from Vancouver to Edmonton. Mr. McElhan was en route from Edmonton to Kamloops. They waved their greetings and went their way. Mr. McElhan's train did not stop."

Friday afternoon while employed in the construction of a new elevator at Owenstown a boy, scuffling dropping 40 feet his Jack Koch on the side of the head, knocking him out and quite severely injuring the side of his face and eye. At first it was thought he had been killed but when the community nurse arrived applied first aid he soon revived. Dr. Bowles arrived and had him brought to the Gleichen Hospital, where he is still in a serious condition, but expected to at times. Owing to the condition of the roads the C. P. R. speeder was used on which the injured man was conveyed to Arrowwood and from there, brought to Gleichen by auto.

A DRAMA
OF CONFLICT
AND ENVY

GLEICHEN COMMUNITY HALL
WEDNESDAY, OCTOBER 14TH

TOWN AND DISTRICT

Three weeks until election day—October 20th.

Mr. and Mrs. F. C. Dettler left on Monday for California.

The Call from now until the end of next year for only \$2.

Two dollars will pay new subscribers to the end of 1926.

T. H. Beach is making a broad statement in this issue.

In writing the Call to have your address changed please give your former address.

Mrs. A. E. Jones returned 5 days from visiting her friend of many years Mrs. Pierce at Calgary.

Gleichen once had a fine group of Boy Scouts. Surely something can be done to revive them.

Counter check books are very cheap just now. Leave your next order with the Call.

The Call will accept a few bags of seeds on overdue subscription accounts—We are some Irish.

When will the next meeting of the Board of Trade be held? The vacation season is surely all over.

There are still a few delinquent subscribers to The Call whom we would be glad to hear from soon.

The community section rule to be held last Saturday afternoon was postponed owing to the bad weather.

Ed. Menard, our musical artist returned Friday from Crookston, Minn. where he attended the funeral of his father.

It's a safe bet that every boy and girl in this district will take a peep at the school fair prize winners in this issue.

When you know of any new and old to the Call. Our Phone is an address—12.

Up to 6 p.m. the prize winners may easily give of his choice, but after that the Golden Boy school showed how mean it can be.

The wheat drive and dance given last Friday evening by the Gleichen Brass Band proved most enjoyable and all are hoping the boys will soon give another.

How about the Armistice banquet this year? Is it even possible that the Great War ended and it would do us a great deal of good to look the learned boys over once again. How about it, boys?

The small order funds are now flooding the country with Xmas catalogues. It is up to the merchants to advertise what they have to offer—otherwise many a good dollar will leave the district never to return.

Just when our politicians have the proposed Hudson Bay railway almost built on air it was a dirty trick for that H. C. to arrive Sunday. Why build a railway to a place that sends out such outlandish weather?

An eastern newspaper subscriber wants the Call to pay \$10 for a series of articles on "Fighting with Royalties". We fancy a great deal more interesting would be articles on "How to Beat Royalties Until Next Spring". Mighty few of our readers care a whoop how royalties eat, but if any are short on grub the Gleichen district can supply a few million bushels of golden grain.
